Nationally known Artist Brian Keith, who has earned recognition for his bronze works of art, is taking on a new project in the City of San Ramon and is on pace to build the largest bronze of a Golden Eagle in the State of California.

The Eagle is symbolic of freedom and the majesty of flight. Because the Tri-Valley is home to the fully protected species, the Golden Eagle, Keith seeks to capture the eagle's nobility in his trademark artistic shape and design. Poised in defense, wings outstretched and curved in a protective pose, the San Ramon Eagle will be among the largest bronze eagle sculptures on display in the nation – and the largest in the State of California.

"I'm so proud to be working with the City of San Ramon and pray that my vision of this majestic eagle will instill a sense of joy and patriotism, complimenting the scenic beauty of the landscape at Rancho San Ramon Park," said Keith.

"During this time of uncertainty, as we all shelter-in-place, the community of San Ramon and its neighbors can look forward to viewing fine art made available to the public and be reminded of nature's beauty and elegance. The San Ramon Eagle is a symbol of the beauty of wildlife at its finest. I can't wait to have the San Ramon Eagle become a part of the tapestry of my hometown."

The public art piece is slated to land at Rancho San Ramon Park in Spring 2021. Sponsorships and community giving opportunities are available in partnership with the San Ramon Arts Foundation [at this link](#).
